# LEADERSHIP

F O R U M

## 2011 Participant Testimonials

“Wow! This is a completely different world for me, a world that I see a great deal of potential in – in it and myself. The kick-off was great because it establishes and engages us in this common vision of leadership.”

“The subject of “motivation” is highly compelling. It is important to question what drives us. This is a well-chosen subject matter at this juncture in the Leadership Forum – inspiring.”

“Even better than the last session. Very engaging and echoing things and topics I’ve leaned about before but with a different slant that brought them back to the foreground.”

“Engaging the entire time. Integrity practices were well defined. Looking forward to evaluating my own level of integrity in different life situations.”

“This session provided an excellent tool box of methods to use that will be incredibly valuable; particularly regarding giving feedback and the importance of asking questions.”

“This session was fantastic. The discourse was informational and inspiring. This is what I was hoping the Leadership Forum would deliver. Best session yet!”

“Great insights into the functionality of the profession now and, more important, the future.”

“Thought it was a great experience sharing and reflecting on our previous successes, failures, etc. It helped to flesh out how these experiences relate to the big picture.”

“It was an excellent “last” session in that it made us look back and start to define our practice as leaders from now on.”

“The entire experience exceeded my expectations by a long shot. I haven’t taken part in a program of this caliber for quite some time.”

“The Forum did a fantastic job of not only teaching us information but also teaching us about ourselves.”

“The Leadership Forum has been a defining moment in my career. The topics, speakers, and interaction have been truly outstanding. This program will serve our design community for many years to come, through the leadership that its graduates provide.”
