Assoc. AIA -- This is for YOU (too)!

By Mary-Margaret Zindren, AIA Minnesota Executive Vice President

Curiosity. Interest in changing context. Desire to know what's next. Openness to learning new skills and better methods.

This Minnesota architecture community is made up of lifelong learners. This attribute is not limited to licensed architects who are required to keep up their CEs; it is as true for Assoc. AIA members as it is for AIAs.

Assoc. AIA members: please save the dates of November 13-16, 2018 on your calendars. This is when the AIA Minnesota Conference on Architecture will be held, and if you've never attended or if it's been awhile, we encourage you to think seriously about attending this year.

From inspiring keynote speakers and skill-development workshops to the latest thinking and application of architectural concepts, we are developing Conference sessions with the whole architecture community in mind. We'll also have seasoned member ambassadors on hand to help you navigate the Conference and get the most out of your experience.

This year we'll have a special Assoc. AIA member registration rate and we're adding more content to our evening sessions, too. Our aims are to ensure that every member of AIA Minnesota feels welcomed and included in the Conference experience, and for

firm leaders to support Assoc. AIA members' interest in attending.

So, think about it: if you're someone who loves to learn (you are!) and someone who wants to connect with others in Minnesota's architecture community (you do!), save the dates and begin the conversations necessary to join us. We'd love to see you there!

ANNOUNCEMENTS

AIA Minnesota 2018 Honor Awards Call for Entries

Since 1954, AIA Minnesota has celebrated outstanding architecture through its annual Honor Awards Program. We invite you to submit your firm's best, recent work to be considered for a 2018 Honor Award.

Our Honor Awards acknowledge outstanding built projects by AIA Minnesota members, or firms that are owned by AIA Minnesota members, that practice professionally in Minnesota. We encourage broad participation from established and new practitioners of firms of all sizes - small, medium, or large.

Submissions for the 2018 AIA Minnesota Honor Awards are due Friday, September 28. For more information about the AIA Minnesota Honor Awards, and a link to Award Force to submit your entry, [visit the website »](#)

AIA Minnesota 2018 Gold Medal Award Call for Entries Closes August 24

The AIA Minnesota Gold Medal Award is one of the highest honors bestowed by the association, recognizing individuals whose work has had a lasting influence on the theory and practice of architecture in Minnesota, and significant, positive impact on the Minnesota architecture community.

Submissions for the 2018 AIA Minnesota Gold Medal Award are due Friday, August 24. New to the submission process this year is the addition of a fourth letter of recommendation, which must be from a mentee of the nominee attesting to their exemplary character.

For more information about the AIA Minnesota Gold Medal, and a link to Award Force to submit your entry, [visit the website »](#)

NEW CAREER TECHNICAL EDUCATION (CTE) BILL HEADED TO WHITE HOUSE FOR SIGNATURE

A bill passed by both the House and the Senate recognizes architecture as part of STEM education in federal law for the first time! The bill also adds new tools for increasing diversity in the profession by allowing states to use federal money to market architecture to historically underrepresented populations, and allows states to use federal grant money to modernize their CTE architectural curriculums. Look for more information about how this will impact Minnesota in coming months.

SAVE THE DATE: AFFORDABILITY, ACCESSIBILITY, AND THE "MISSING MIDDLE"

September 26, 2018

St. Paul, MN

Curious about "Missing Middle" housing options that sensitively add density to existing neighborhoods? Or options for older adults who want to age in their communities? Or affordability in our neighborhoods?

AIA St. Paul and AARP are teaming up to bring Dan Parolek of Opticos Design to St. Paul to

discuss Missing Middle housing and neighborhoods for all. Dan will present design options for diverse housing along a spectrum of affordability, including duplexes, fourplexes, and bungalow courts, to support walkable communities, locally-serving retail, and public transportation options. Missing Middle Housing provides a solution to the mismatch between the available U.S. housing stock and shifting demographics combined with the growing demand for walkability.

SAVE THE DATE and we will see you in September!

COMMITTEE AND KNOWLEDGE COMMUNITY UPDATES

ARCHITECT LICENSING ADVISORY COMMITTEE

TRANSITIONING TO ARE 5.0

The ARE 4.0 is retired as of June 30. If you are still testing and haven't yet transitioned to ARE 5.0, the system will most likely transition you the first time you log in to your NCARB Record and open the Exams tab.

If you've recently tested in ARE 4.0 and are still waiting for a score report, you will not be able to transition until your score is posted. Due to extremely high testing volumes, score reports may take longer to process, potentially up to 3 to 4 weeks to post.

ARE 5.0 REVIEWS PLANNED FOR FALL

The Architects Licensing Advisory Committee is beginning to develop review classes for those preparing for the 5.0 exam. The tentative plan is the following:

September	Project Planning & Design and Project Development & Documentation
October	Practice Management and Project Management Programming & Analysis
November	Construction & Evaluation

SUPER-REGIONAL MATERIALS - WOOD FROM THE HOOD: REUSING THE URBAN FOREST

Thursday, August 9, 7:30 - 9:00 am

Tour of Wood from the Hood - 2640 Minnehaha Ave, Minneapolis, MN

Wonderland Park / Peace Coffee follow up - 3262 Minnehaha Ave, Minneapolis, MN

Come connect with kCOTE for a fascinating foray at how a local log is selected, sawn, air-dried, kiln-dried, and then produced into something magical with a local zip code. Understand how to incorporate these great specimens of species starting in schematic design. Find out why these trees are not eligible for FSC but how to properly specify to get the results you desire. Learn to identify beautiful species, grains and patterns, like birds-eye and spalting. [Register »](#)

The July 12th AIA kCOTE tour of Veit's Minneapolis construction waste diversion facility taught us how architects, employing Construction Waste Management specifications, can divert tons of waste from landfills. The fascinating tour demonstrated why some items previously thought recyclable in our market were unable to meet diversion criteria, and why steel and wood are the materials

of choice for a chance at second lives. Watch for future kCOTE meetings and events!
