

A'20 MN VIRTUAL CONFERENCE PROGRAMS:

(Shaded blue program are already sponsored)

DAY 1: Climate Action Keynote: Edward Mazria, FAIA, Hon. FRAIC is an internationally recognized architect, author, researcher, and educator. Over the past decade, his seminal research into the sustainability, resilience, energy consumption, and greenhouse gas emissions of the built environment has redefined the role of architecture, planning, design, and building, in reshaping our world. He is the founder of Architecture 2030, a think tank developing real-world solutions for 21st century problems, and host of the AIA+2030 Professional Education Series and inspiration for the 2030 Districts movement in North American cities.

DAY 1 PROGRAMS:

Jesse Turck, BWBR; Christiana Moss, Studio Ma; Rives Taylor, Gensler

Carbon in Architecture—Connecting the dots in the Toolkit

The PechaKucha (7 topics/7minutes each) structure of this session provides a platform to connect the dots on carbon in the toolkit. While carbon is not explicitly called out as a singular goal, it is embedded in many areas. Short talks that combine brief education on the impact area will break down the complex story of carbon impacts in design and building and surface where they occur within the toolkit. Thus, rendering the multifaceted topic clearly through key interactions, in a program that can be used in practice.
