

RESTORING RONDO: MAXFIELD ELEMENTARY SCHOOL

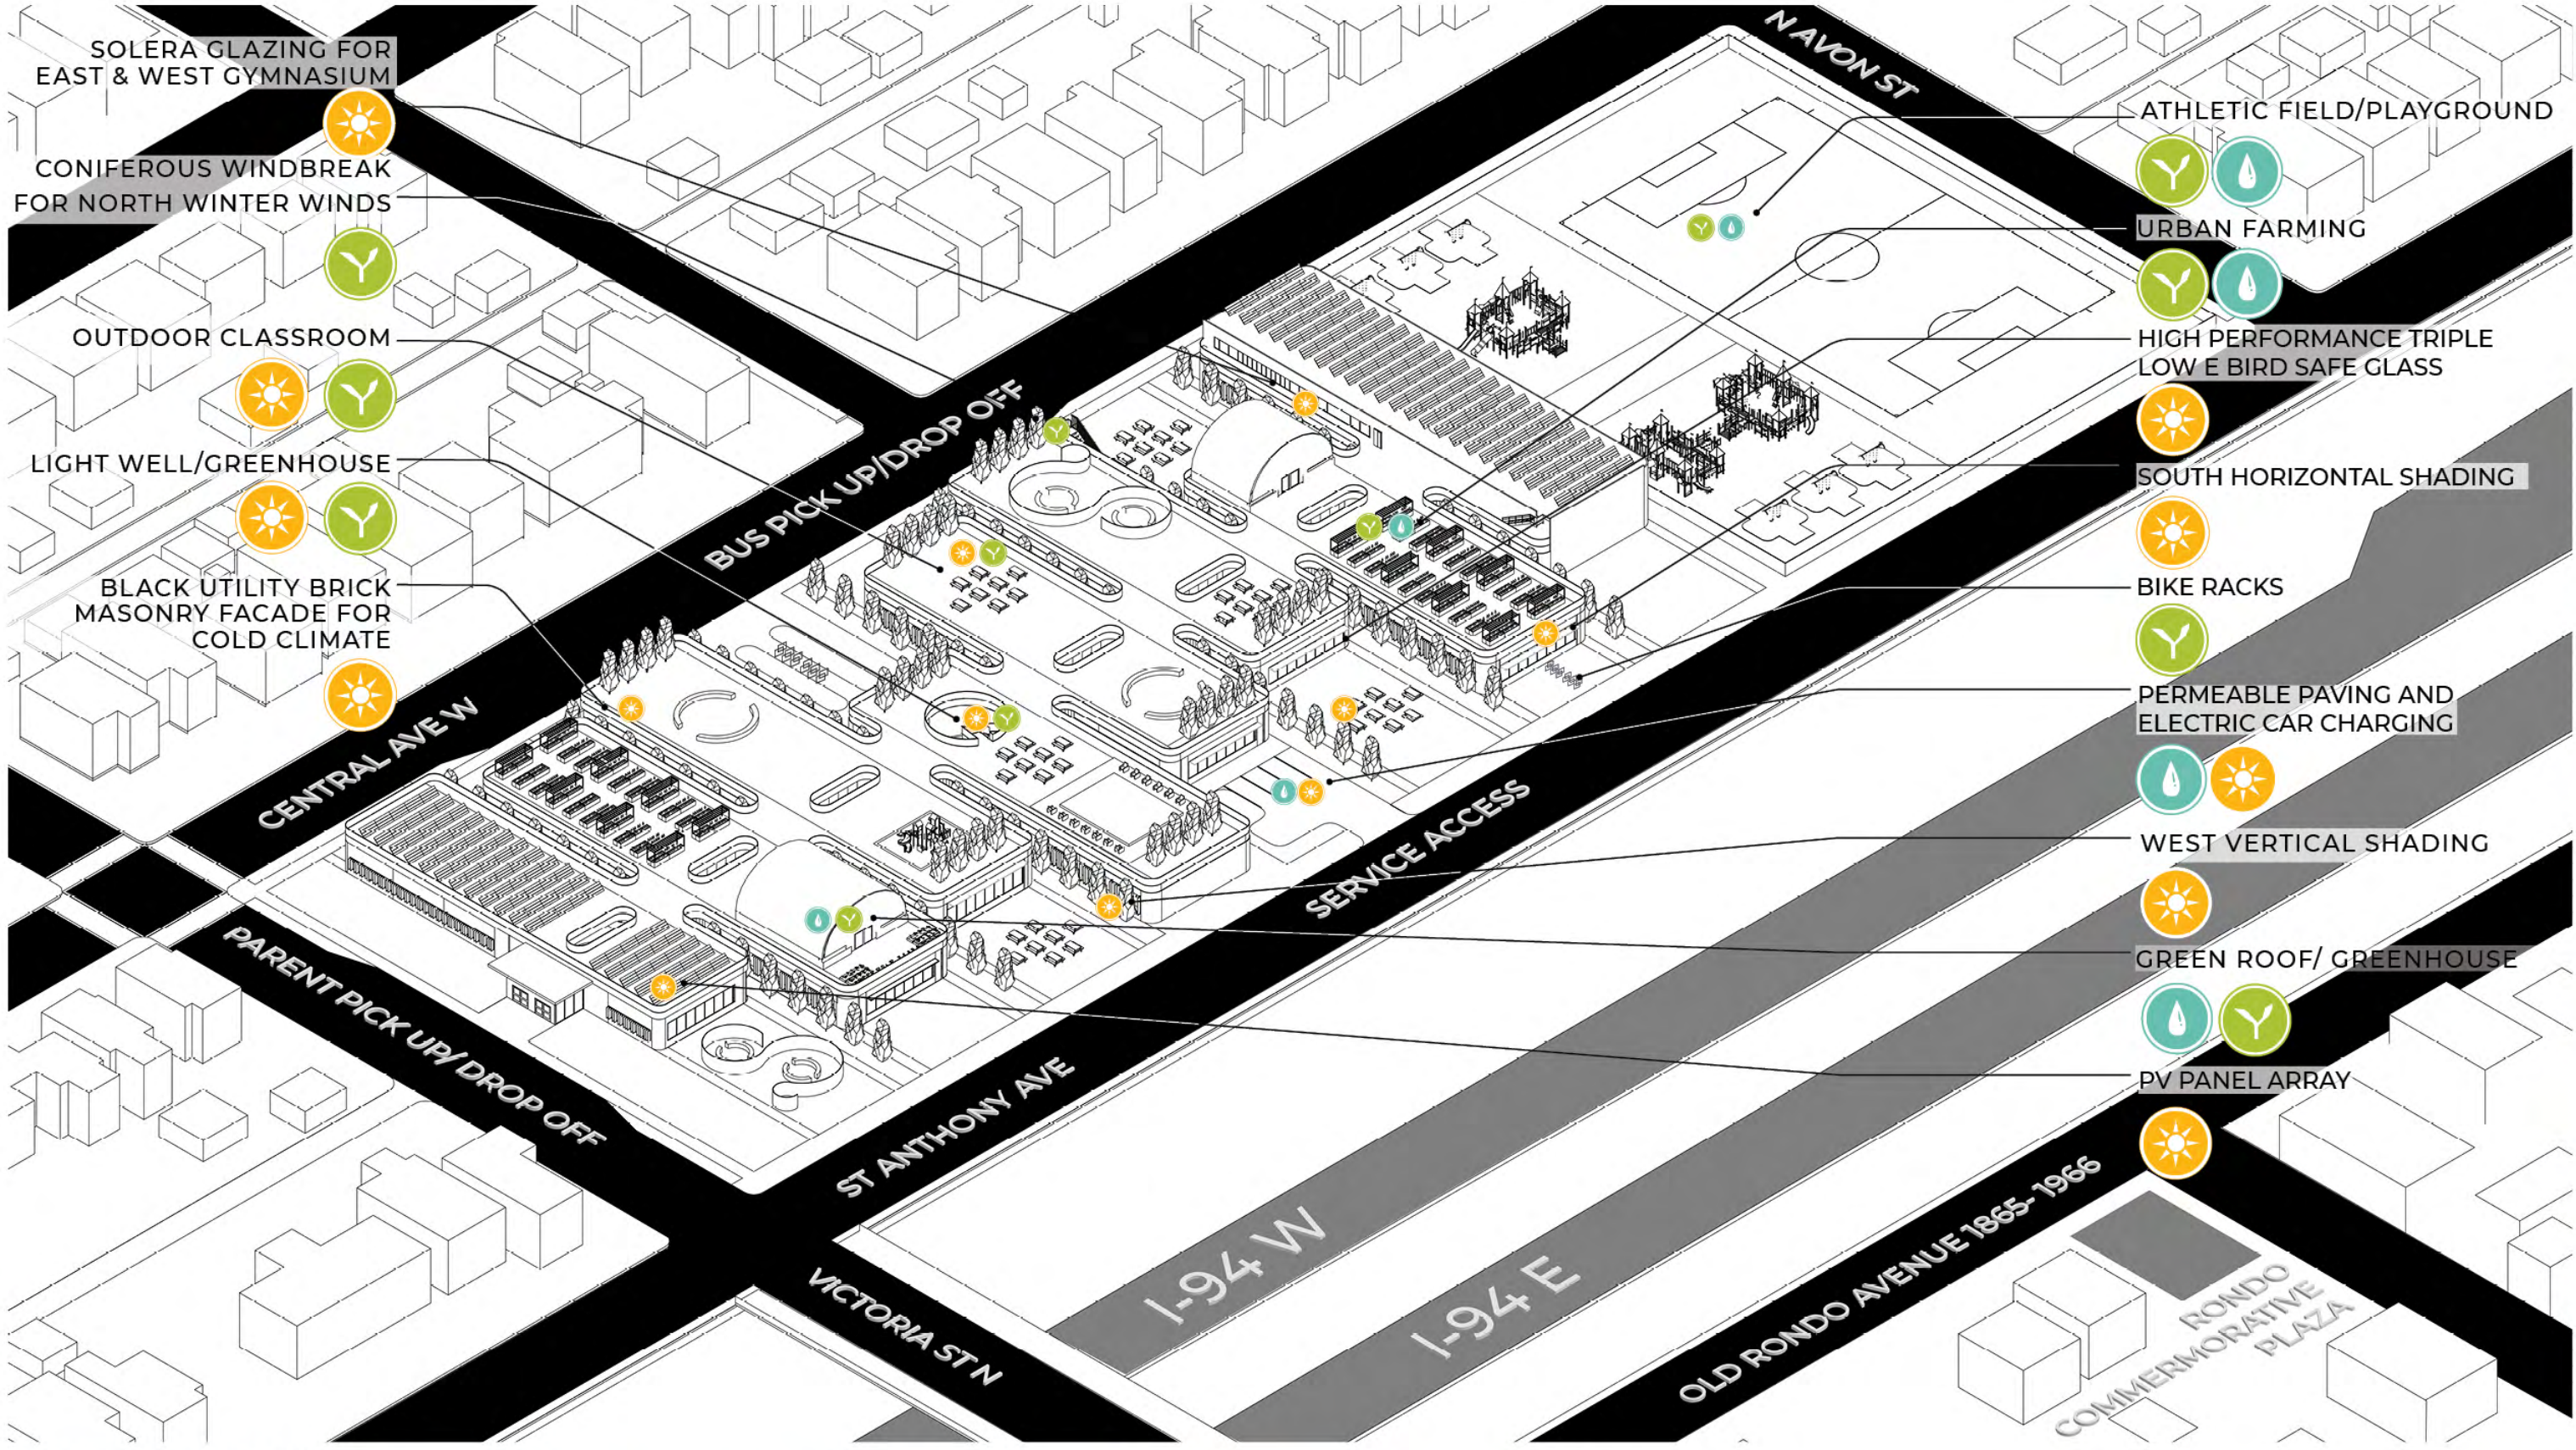

2023 Ralph Rapson Traveling Study Award in Partnership with ReConnect Rondo

Maxfield Elementary School will serve as the catalyst to reignite and unite Rondo's diverse and culturally rich community. Maxfield is directly adjacent to I-94, the construction of this freeway **demolished over 700 homes in the Rondo Neighborhood**. Directly through the heart of a culturally rich community. The design of Maxfield reimagines the school reaching back out to either side of **I-94 to stitch the Rondo neighborhood back together**.

According the Rondo Past Prosperity study conducted by the YORTH group, Present day Rondo scored a score of **-30 on a District performance scorecard** (see diagram below)*.
