

Homes by Architects Tour Call for Entries

Purpose

The Homes by Architects Tour, founded by AIA Minnesota in 2008, is a two-day event and public outreach opportunity where architect-design homes from around the Twin Cities area are showcased to a public audience.

By showcasing the highest-quality new and remodeled, architect-designed homes from a range of project types, sizes, budgets, and sites, the event strives to demonstrate the value of architect-led residential design and educate the public about the quality and diversity of skills an architect can offer.

Additionally, the tour provides an opportunity for AIA Minnesota members to promote their services, expand their client base, and showcase their highest-quality work.

Event Dates

September 21 and 22, 2019, from 10:00 am to 5:00 pm each day.

Eligibility

Residential projects designed by a registered architect, or a team where a registered architect is the lead designer, who is a current AIA Minnesota member are eligible. Projects may be new construction, remodels or additions, and must have been completed within the past six years (as of January 1, 2019) or, if new construction, must be scheduled for completion by September 1, 2019.

Projects should exemplify the best qualities of an architect's work and demonstrate an innovative use of design solutions and/or materials. Due to the nature of the tour, remodeling and addition projects of significant size are preferred. Single-room or small-in-scope projects may undergo additional scrutiny to ensure they adequately illustrate the objectives of the event.

No firm may have more than 25 percent of the homes on the tour, and no single architect may have more than two projects on the tour.

The Twin Cities area is the focus of the tour, given that a close proximity between homes makes for a more successful tour. However, projects located outside the metro area will be considered if within a reasonable distance from the Twin Cities.
