Call for Entries

Purpose

The Homes by Architects Tour, founded by AIA Minnesota in 2008, is a two-day event and public outreach opportunity where architect-designed homes from around the state are showcased to a public audience.

By showcasing the highest-quality new and remodeled, architect-designed homes from a range of project types, sizes, budgets, and sites, the event strives to demonstrate the value of architect-led residential design and educate the public about the quality and diversity of skills an architect can offer.

Additionally, the tour provides an opportunity for AIA Minnesota members to promote their services, expand their client base, and showcase their high-quality work.

Event Dates

The Homes by Architects Tour is a hybrid event. Homes will be available to tour in person on Saturday, September 28 and Sunday, September 29, 2024, from 10:00 am to 5:00 pm each day. A virtual tour will be available to view online Saturday, September 21–Sunday, October 6.

Eligibility

Residential projects designed by a registered architect, or a team where a registered architect is the lead designer, who is a current AIA Minnesota member are eligible. Projects may be new construction, remodels, or additions, and must have been completed within the past six years (as of January 1, 2024) or must be scheduled for completion by July 15, 2024. “In-person” tour projects must be located within a one-hour’s drive from the Minneapolis–St. Paul Airport.

Projects should exemplify the best qualities of an architect’s work, demonstrate an innovative use of design solutions and/or materials, and tell a compelling story. Single-room or small-in-scope projects may undergo additional scrutiny to ensure they adequately illustrate the objectives of the event.

Projects may not be for sale before or during the tour. Custom vacation homes or accessory dwelling units built with the intention to be rented out are allowed.

No firm may have more than 25 percent of the homes on the tour, and no single architect may have more than two projects on the tour.

Choose to Show Your Project In-Person, Virtual, or Both Ways

AIA Minnesota is pleased to offer three options for showcasing your project:

1. In-person only
2. Virtual only
3. Both in-person and virtual

For **virtual** tour homes, the project is showcased online through photography and videos (provided by the architect) and via a virtual Matterport tour. If the home is virtual only (Option #2), the physical property address will not be disclosed and no tour goers will have in-person access to the home.

Step 1: Submission Process

To submit a project for consideration of inclusion on the tour, the following information is required:

- **Project information:** address, project type, square footage, date of completion, description
- **Entrant information:** firm information, design team names, firm logo, architect headshot or team photo
- **Project images:** high-resolution, print-ready project photos or, if no print-ready photos are available at the time of submission, renderings, sketches, plans, construction photos, or scouting shots
- **Consent forms:** signed Homeowner Consent Form, signed Architect Agreement
- **Supplier Information:** list of all project partners along with contact information for each
- **New in 2022:** Paragraph on how the project demonstrates at least one [AIA Framework for Design Excellence category](#)
- **New in 2023:** Description of sustainable design elements and/or processes

Materials must be submitted electronically using [AIA Minnesota's online awards platform](#). The deadline to submit projects without paying a late fee penalty is **Friday, April 26, 2024 by 12:00 pm noon CT**.

After this date, any projects accepted on the tour will be subject to a \$100 late fee.

Step 2: Selection Process & Criteria

A submission is considered complete when all portions of the application are completed and signed, including signed consent from the homeowners to participate in the tour if their home is selected. **By completing a submission, you are not ensured a spot on the tour.**

Members of the AIA Minnesota residential architecture committee will review all submitted projects by May 17, 2024, and evaluate each one fairly and objectively, with a primary goal of selecting a diverse and representative range of project types, scopes, budgets, and sites that best support the programmatic objectives of the tour. All submissions are subject to final approval by AIA Minnesota staff.

Submissions are evaluated by the committee using the following questions:

- Does the project demonstrate innovative use of design solutions and/or materials?
- Does the project tell a compelling story that would be appealing to a broad audience?

continued on next page

- Does the project illustrate the value of architectural services in the design solutions?
- **New in 2023:** Does the project feature sustainable design elements and/or processes?
- **New in 2023:** Taking into consideration the other tour submissions, how well would this project add variety to the tour?

In-person tour projects may be asked to re-submit for a future tour if there are no other tour projects in the home's vicinity. Virtual tour projects may be asked to re-submit for a future tour if there are fewer than three virtual tour projects total.

Step 3: Confirmation of Projects & Payment of Participation Fees

Following completion of the selection process, all submitters will be notified of the outcome. Submitters whose projects were selected for inclusion on the tour will be invited to attend an orientation session and participation fees will be collected.

- In-person format participation fee: \$2,600
- Virtual format participation fee: \$400 + the cost of the Matterport filming*
- Virtual format participation fee if firm owns and is willing to use their own Matterport camera**:
\$400
- Both in-person and virtual format participation fee: \$3,000 + the cost of the Matterport filming*
- Both in-person and virtual format participation fee, if firm owns and is willing to use their own Matterport camera**:
\$3,000

**AIA Minnesota staff will, to the best of their ability, research potential vendors and get quotes to share with the architecture firm. Architecture firm will coordinate Matterport scheduling and pay the vendor directly.*

***Subject to AIA Minnesota staff verification of firm's ability to produce a Matterport virtual tour that meets the tour's quality standards.*

Participants may choose from two payment schedule options:

- **Plan A.** Payment in full by May 31, 2024.
- **Plan B.** Two installments: initial payment of 50% of participation fee on May 31 and final payment of remaining amount plus 10% administrative fee by June 30, 2024.
