High School Diploma Additional experience hours required	Not Accepted	Not Accepted	15,488 hours (8 years) additional experience beyond AXP	Not allowed	8 years including AXP
NCARB Certificate	Not Required	Accepted	Accepted	Certificate Plus	Certificate Plus

Notes

- Calculation of hours per year in proposed MN paths is based on federal work year of 2,080, minus 8 holidays and 10 days of time away.
- Additional experience is outside AXP requirements and would require signoff by a licensed architect supervising the work of the prospective licensee.
- All non-NAAB accredited degrees must be from programs based in the United States or its territories.
- FROM NCARB Note: If you are a citizen of Australia, Canada, Mexico, New Zealand, or the United Kingdom, you may be able to pursue architectural licensure in the United States through the appropriate mutual recognition arrangement.
